## Who should attend the Simulated UMAT Day?

- ✓ The Simulated UMAT Day program is highly recommended to anyone who is planning to sit the UMAT.
- ✓ Ideal for year 10, 11 and 12 students, as the workshop provides essential insight about the UMAT and the degree of preparation required to succeed.
- ✓ Students with none or minimal knowledge about the UMAT.
- ✓ Students who have already been preparing and would like to consolidate their knowledge and UMAT strategies.

### WHAT IS THE SIMULATED UMAT DAY?

The Simulated UMAT Day aims to provide prospective UMAT students with first-hand experience in sitting such a highly critical test.

**Practice test paper:** On the day students will sit a full mock UMAT practice test that is a simulation of the real UMAT. The test paper for this workshop is prepared by the National Institute of Education and UMAT Australia.

**UMAT tutorial:** The day begins with an intensive five hours of tuition where selected practice questions will be covered, explaining the skills, strategies and knowledge required to answer UMAT-style questions. Through teaching and class discussion, students learn how to answer questions under timed conditions accurately and confidently. Medical interviews and careers in health will also be explained. The simulated UMAT day is finalised by answering students' questions and providing advice and recommendations.

**Scores and ranking:** The only way to know where you are standing in terms of UMAT-readiness is to see how your test score compares against other UMAT participants. At the end of the day tests will be marked, and group ranking will be explained.
